ASTRALITE VANTAGE
uPVC WINDOWS & DOORS

VANTAGE Slider Window...*Simplicity at its Finest!*

VANTAGE
Slider Window

VANTAGE
Slider Window (Frenched)

The Astralite Vantage Slider Window is durable and functional, designed with few hardware pieces which ensure that windows are less susceptible to wear and tear. The weather-stripping on the frame adds energy efficiency. The slider window is a classic design that suits most architectural designs. *(Available Frenched)*

Unit Sizes

24" x 24"	32" x 38 3/8"
48" x 48"	36" x 50 5/8"
36" x 48"	48" x 38 3/8"
	48" x 50 3/8"

VANTAGE Patio Swing & Slider Doors

VANTAGE Swing Door

VANTAGE Slider Door

Astralite Vantage Doors are aesthetically pleasing and offers several preferred features. They are: low maintenance, unaffected by the weather even in coastal areas, water tight, and have an exceptionally secure multi-point locking system. The single, double swing and slider doors are stylish and complement any home.

Unit Sizes

Vantage Swing Door		Vantage Slider Door
80" x 36"	80" x 60"	80" x 80"
80" x 48"	80" x 48"	80" x 72"

VANTAGE Casement and Projection Window

VANTAGE
Casement Window

VANTAGE
Projection Window (Frenched)

The Casement and Projection Windows combine the essence and tradition of the past with modern functionality. These windows were designed to maximise ventilation and view, due to the full-opening vent and large, unobstructed areas of glass. *(Available Frenched)*

Unit Sizes

Vantage Casement Window	Vantage Projection Window
24" x 24"	24" x 36"
24" x 48"	24" x 50 5/8"
24" x 50 3/8"	

VANTAGE Arches...*Stylish and Contemporary*

For added style and character, you can enhance your Sash and Casement Windows with a Vantage Arch. They are designed to beautifully and perfectly match the design of your Vantage Window.

VANTAGE Sash Window...*Stylish and Contemporary*

VANTAGE Sash Window (Frenched)

The timeless character of this single hung sash window is further enhanced by its strength and durability. It is cleverly designed to withstand the coastal elements so that its beauty and functionality are maintained. The Vantage Sash Window is one of the most popular choices for both traditional and contemporary homes. *(Available Frenched)*

Unit Sizes

24" x 24"	32" x 38 3/8"
36" x 48"	36" x 50 5/8"
48" x 48"	48" x 50 3/8"
36" x 24"	48" x 38 3/8"

**Contact your dealer or
Metpro for warranty details.**

Metpro guarantees that only first grade uPVC extrusions are used in the manufacture of our Astralite windows and doors. Raw materials are tested in independent laboratories and will not corrode, chalk, peel, discolour, pit, crack or rot due to the effects of weather or during the course of acceptable use. Additionally, the extrusion will not warp or lose its stated dimensions in instances of extreme heat or cold. Salt air will not affect the chemical composition or appearance of Astralite windows and doors.

Benefits of Using uPVC Vinyl in comparison to Steel and Aluminium

- Will not corrode, rot, flake, peel or warp
- Does not require painting or varnishing
- Strong, durable, abrasion and moisture resistant
- Electrically non-conductive
- Excellent fireproof properties
- Easy to clean
- Fade resistant colour
- Does not promote condensation
- Does not pit or dent

> Refined Style

- Professionally designed and made to complement any home
- Comes plain or with colonial frenching

> Long Lasting Beauty and Virtually No Maintenance

- Keeps your investment at its best for many years to come
- Smooth opening with no sticking or jamming in damp weather

> Smart Design

- Designed to ensure water tightness
- Manufactured to standard sizes making them ideal for replacement or new construction

> Superior Strength and Security

- Fusion welded corners and outer frame yield maximum joint integrity, brute strength and absolutely leak proof connections
- Multi-point locking system incorporating long bolts for exceptional security

Why Choose Astralite Vantage uPVC Windows and Doors over other conventional types?

The Comparable Strength and Safety

Actually most of the strength of the window comes from the inner frame (sashes) and/or the mullions (vertical bar in between the panes of the glass), so a window made from uPVC isn't any less safe or rigid than one made from another conventional material. Plus Astralite Vantage uPVC Windows have fusion welded frames and aluminium reinforcements fitted where the locking hardware usually is, maximising the strength of your window.

Vantage Quality Production = Vantage Quality Product

The Vinyl extrusions used to manufacture Astralite are made from a combination of uPVC and special performance-enhancing micro-ingredients. This ensures that Vantage Windows and Doors stay beautiful and last a lifetime.

Heat and UV Stabilisers

- Prevent colour fading, weakening and other harmful effects due to the sun's UV rays.

Impact Modifiers

- Eliminate splitting and shattering from sharp blows or movements.

Titanium Dioxide

- Prevent heat build up on surface.

So in terms of resistance to wear and tear, no other material can compare!

Quality Assured!

Astralite Vantage is manufactured from 100% high quality virgin vinyl, thus maximising performance in strength, durability and weather-ability of windows and doors. Every window frame undergoes stringent quality control and testing. You too can be sure of a premium product for your home, one that is:

- Strong
- Durable
- Easy to install
- Low maintenance
- Classic Design
